

Our Goals

Strengthen our Volunteer Program

Our club could not exist without the hard work and dedication of our volunteers!

Our volunteers perform many critical functions for our club such as serving as RSOs, performing weekly maintenance, handling administrative functions and staffing gun shows, and we want them to know that WE LOVE & APPRECIATE THEM!

We are going to find creative ways to show our deep appreciation and provide the recognition that they deserve in 2023!

Renovate our Main Firing Line

Our main firing line has changed very little in over twenty years, and recently sustained some damage due to Hurricane Ian.

It's time to "reimagine" our main firing line and build a new main firing line that will both improve the safety of our Members and Patrons and offer modern conveniences such as ventilation, more space for gear, electrical outlets for charging devices, and wireless for Internet connectivity.

Create a REAL Clubhouse for Our Members

Let's be honest and admit that what has been referred to as a "Clubhouse" is *not really* a clubhouse. It's a check-in counter, office, small break room with a pantry and some really dated bathrooms...

Our goal is to separate the "office" from the "clubhouse" by potentially installing a new office and check-in building closer to the main firing line, and then either renovate or replace the existing building to create a dedicated clubhouse that our members can be proud of!

It's consistent with our goal to ensure that our facilities are both family-friendly and ADA-compliant. Our Members and their Families need a place to go and relax that is off the shooting line, and we'll need a space to host some exciting events!

Renovate our Classroom

Our classroom is routinely utilized for instructor-led classes in addition to workshop meetings. MGAC has spent money over the last few years replacing the siding and repairing the septic and A/C systems, and thanks to Hurricane Ian we will spend more money to repair the roof.

Why not finish the job and renovate the interior, to transform this space into something our Members can be proud of?

Host More Member Events & Shooting Competitions

Over the years we seem to have forgotten why our club exists and hold too few events for our valued Members.

Whether it be a summer BBQ, holiday party or member swap meet, events that bring our members together are too important to be overlooked!

Hosting more competitions at our club will allow us to showcase the talent of our Members, and raise additional revenue to enhance our facilities.

It's also very consistent with our mission to support the Second Amendment and the shooting sports at-large, and our goal to transform MGAC into a first-class shooting destination that we can all be proud of!

Develop a Multiyear Plan & Vision for MGAC

Our Members have big ideas and we are listening!

Topics of discussion include but are not limited to the reintroduction of our 1,000-yard range, installation of electronic targets, a range dedicated to CMP/NRA competition, improved camping facilities, and more!

We are surrounded by a large 2A community and located within one of the most favorable jurisdictions in the USA, and have a lot of usable property!

The sky is the limit, but we need a plan and a vision FIRST!

We'll develop a multiyear plan and vision that will serve our clubs needs well into the future!
